### ADDITIONAL INFORMATION

#### WE HAVE PERMISSION TO SEARCH THE DIRECTOR AND A GUARANTEE IS AVAILABLE

We have advised the Customer concerned that searches with a credit reference agency will be made against their Name and Business; they have consented verbally to such searches being carried out.

#### Client Info

ETS Transport Limited is a haulage company that transports aggregate materials. The director Rajinder Singh has been worked as a driver for a substantial number of years and has established relationships across the industry. This is a niche as the vehicles are specifically modified for the purpose of transporting aggregates. The companies they contract with are FM Conway and Hanson Aggregates. ETS Transport is expanding, and they now trade at circa £35-50k per month in revenue.

#### Rationale

ETS Transport is aiming to take on a new vehicle and hire another driver. As part of this they want to boost cash reserves to support the initial set up cost of the new employee. This is what the company did back in Oct23 when they took their first commercial loan of £10,000 through Maximise Capital.
