Notes - e.g. Rationale for lend, what benefit will it provide, new contracts, any further info

WBZ Cars Limited, initially founded as a sole proprietorship over three years ago (10/02/2021), transitioned to a limited company in June 2023. In a remarkably short period, they have achieved a consistent monthly turnover exceeding £20,000. To meet this growing demand, they require a small loan of £20,000 to expand their inventory.

Benefits the £20,000 cash injection will have on WBZ Cars Limited are:

- **Increased Inventory:** The additional funds will allow WBZ Cars Limited to purchase more vehicles, expanding their stock. This increase in inventory will enable the company to meet the growing customer demand more effectively, reducing the chances of lost sales due to stock shortages.
- **Enhanced Revenue Potential:** With more vehicles available for sale, the company can cater to a larger customer base, potentially increasing their monthly turnover. This higher inventory turnover will lead to greater revenue and profitability.
- **Improved Market Position:** By having a more extensive and diverse range of cars, WBZ Cars Limited can attract a broader audience and compete more effectively with other car dealerships. This improved market position will enhance the company's brand reputation and customer loyalty.
