<b>Previous Addresses</b>					

## Notes - e.g. Rationale for lend, what benefit will it provide, new contracts, any further info

Emanuele runs a dental hygiene and dental implant business, they have been trading for 6 years now. He works and has contracts with 6 different dental practises and specialises in dental implants and dental repairs.

He is looking for the funding to help purchase a new batch of dental implants since he is seeing an increase in work at the moment and wants to purchase his stock in bulk since this will help save money over time. Each implant is worth around £120 each and he is looking to purchase around 330 of them since he will get a cut on the cost. Any leftover money will be used to help purchase some new equipment for the business to replace some old tools that he has.

Emanuele is currently a UK homeowner with a property worth around £1million with roughly £700k left on his mortgage, he has no history of defaults or missed payments and has a clean record.
